APPLIED PROJECTS	Global Field Intensive: U.S.-France Relationship	Spring 2026, New York University
	NYU SPS Center for Global Affairs field-based course in Paris, France examining the U.S.–France alliance and broader transatlantic relationship amid rising geoeconomic tensions, trade conflict, and regulatory divergence between the U.S. and EU on AI governance, climate finance, defense, and trade. Contributed to a Sustainability and Climate Finance learning pod analyzing EU and U.S. approaches to sustainable investment, disclosure, and transition finance and authored a policy brief assessing sustainable finance frameworks in France.	
	NYU Real World Business Consulting Practicum	Fall 2025, New York University
	Partner program with New York Climate Exchange to develop a three-year business model and sustainable operating strategy for a nonprofit climate solutions campus on Governors Island. Conducted market research and evaluated revenue streams and pricing models to support long-term financial independence. Delivered a professional pitch to New York Climate Exchange executives and external industry judges, incorporating iterative client feedback.	
	Global Climate Justice Fellows Program	Summer 2025, New York University
	Partnership between Hydro-Québec and NYU's Energy, Climate Justice, and Sustainability Lab. Engaged in market research and provided a strategy recommendation report based on present and future risk factors for the hydroelectric utility including US-Canada trade relations, offshore wind, nuclear energy, data centers and AI, cybersecurity, carbon markets, and climate change. Provided supplemental research on the 2026 NYC mayoral and US Northeast gubernatorial elections.	
SKILLS	Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Google Drive (Docs, Sheets, Slides), Salesforce, Stata, Cost of Generation Modeling, iBuy, Concur, Brightspace, French (Intermediate)
